Human capacity changes

cognitive state is latent and
only noisily observed (POMDP)

Memory-augmented DRL

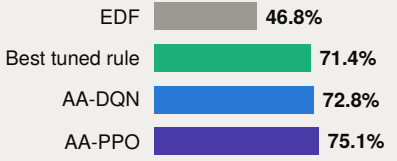

noisy attention, fatigue
+ deadline-aware queue summary

observation history ⇒ belief

AA-PPO / AA-DQN agent

actions: easy · hard · EDF · SPT · **rest**

Tasks completed on time

- rests before the post-lunch dip
- hard tasks while attention is high
- robust to noise, ±30% model changes
